

## DAVID R. WILLIAMS

Dean for Research of Arts, Science, & Engineering  
William G. Allyn Professor of Medical Optics  
317 Lattimore Hall University of Rochester  
Rochester, New York 14627  
Phone: +1 585-276-6070  
Fax: +1 585-275-3480  
Email: david.williams@rochester.edu  
Website: <http://www.rochester.edu/college/research>

Director, Center for Visual Science  
Medical Center G4107, P.O. Box 319  
University of Rochester  
Rochester, NY 14627  
Phone: +1 585-275-8672  
Fax: +1 585-271-3043  
Email: david@cvs.rochester.edu  
Website: <http://www.cvs.rochester.edu/williamslab/>

Married to Inger M. Williams, Ph.D.  
Children, Erika and Kristoffer.

## EDUCATION

1980 Postdoctoral Research Associate, Bell Laboratories, Murray Hill, NJ  
1979 Ph.D., Department of Psychology, Univ. of California, San Diego  
1976 M.A., Department of Psychology, Univ. of California, San Diego  
1975 B.S., Department of Psychology, Denison University, Granville, OH

## PRIMARY APPOINTMENTS

2011-pres Dean for Research, University of Rochester's School of Arts, Science & Engineering  
2009-pres Professor, Institute of Optics, University of Rochester  
1995-2009 Professor, Department of Brain and Cognitive Sciences, University of Rochester  
1991-pres Director, Center for Visual Science, University of Rochester.  
1990-1995 Professor, Department of Psychology, University of Rochester  
1988-1991 Associate Director, Center for Visual Science, University of Rochester  
1984-1990 Associate Professor, Department of Psychology, University of Rochester  
1981-1984 Assistant Professor, Department of Psychology, University of Rochester

## JOINT APPOINTMENTS

2009-pres Professor, Department of Brain and Cognitive Sciences, University of Rochester  
2001-pres Professor, Department of Biomedical Engineering, University of Rochester  
1997-1998 Visiting Professor, Department of Biological Structure, University of Washington, Seattle, WA  
1997-pres Department of Ophthalmology, School of Medicine and Dentistry, University of Rochester  
1988-2009 Institute of Optics, College of Engineering and Applied Science, University of Rochester

1981-pres Center for Visual Science, College of Arts and Science, University of Rochester

## **AWARDS**

2016 Jay Pepose Award in Vision Sciences from Brandeis University  
2016 The Association for Research in Vision and Ophthalmology Foundation Honoree  
2015 Beckman-Argyros Award from the Arnold and Mabel Beckman Foundation  
2015 Procter Prize from Sigma Xi, the Scientific Research Society  
2015 Association for Research in Vision and Ophthalmology Distinguished Service Award  
2015 Stein Innovation Award, Research to Prevent Blindness  
2014 Member, National Academy of Sciences  
2013 Edridge Green Medal, The Royal College of Ophthalmologists  
2012 Champalimaud Vision Award  
2012 Gold Fellow, Association for Research in Vision and Ophthalmology  
2009 Robert M. Boynton Lecture, Optical Society of America (OSA) Fall Vision Meeting, University of Washington  
2009 Silver Fellow, Association for Research in Vision and Ophthalmology  
2008 Rochester Business Journal Health Care Achievement Award for Innovation  
2007 Bressler Prize, Jewish Guild for the Blind  
2007 Honorary Doctor of Science, The State University of New York, State College of Optometry  
2006 Fellow, American Association for the Advancement of Science.  
2006 Friedenwald Award, Association for Research in Vision and Ophthalmology  
2004 University of Rochester Center for Electronic Imaging Systems Technology Transfer Award  
2004 Archie Mahan Prize, Optical Society of America  
2003 Founders Award, Wavefront Congress, San Francisco, CA.  
2003 R&D 100 Award for the MEMS-based Adaptive Optics Phoropter, given by R&D Magazine  
2001 Best of What's New Award in the Medical Technology category for the Zyoptix laser vision correction system  
2001 Honorary Doctor of Science, Denison University  
1998 Semifinalist for Discover Award for Technological Innovation  
1998 Tillyer Medal, Optical Society of America  
1997-pres William G. Allyn Professor of Medical Optics at the Institute of Optics, University of Rochester  
1997-98 John Simon Guggenheim Memorial Fellowship  
1992-pres Fellow, Optical Society of America  
1986 Distinguished Scientific Award for an Early Contribution to Psychology, American Psychological Association  
1985-1990 National Eye Institute Research and Career Development Award  
1987-1988 University of Rochester Mentor Award, for excellence in teaching, research, and service to the University  
1979-1980 Bell Laboratories Postdoctoral Fellowship  
1976-1979 National Science Foundation Graduate Fellowship  
1977 Association for Research in Vision and Ophthalmology Travel Fellowship  
1974 Psychology Student Fellow, Denison University

## **OTHER LEADERSHIP POSITIONS**

- 2010 Chair of the JOV Editor-in-Chief Nominating Committee
- 2009-2012 OSA Representative to the U.S. Advisory Committee to the International Commission for Optics
- 2010 Member, Organization Committee of EOS, for the 5th European Meeting on Visual and Physiological Optics
- 2010-2015 Member, Arnold and Mabel Beckman Foundation External Grant Committee
- 2010-pres Advisory Editor, Biomedical Optics Express
- 2003-2013 Lead Investigator, Adaptive Optics Instrumentation for Advanced Ophthalmic Imaging, a National Eye Institute Bioengineering Research Partnership, PAR 02-010
- 2001-2013 Editorial Board and reviewer, Journal of Vision
- 2000-2007 Associate Director, Vision Science, National Science Foundation Science and Technology Center for Adaptive Optics, UC, Santa Cruz

### Optical Society of America:

- 2011-2013 Member, 2012 Distinguished Service Award Committee
- 1997-1998 Chair, Societal Objectives and Planning Committee
- 1996-1998 Director-at-large, Board of Directors.
- 1988-1990 Chair, Vision and Medical Optics Division
- 1988-1989 Chair, Color Technical Group, Vice-Chair, 1986-1987

### Association for Research in Vision and Ophthalmology:

- 2017-2021 Member, Awards Committee
- 2011-2013 Chair, Association for Research in Vision and Ophthalmology (ARVO) Finance Committee
- 2013 Vice President
- 2009-2014 Member, Board of Trustees
- 2012 Vice President-elect
- 1989 Chair, Visual Psychophysics Program Committee, 1989
- 1986-1989 Member, Visual Psychophysics Program Committee, 1986-1989

## **GRANTS AND CONTRACTS**

### Federal:

- 1982-1985 National Eye Institute Research Grant, R01 EY04367, "Retinal Mechanisms and Visual Resolution," Total Costs: \$275,000.
- 1984-1987 United States Air Force Grant, AFOSR-85-0019, "Peripheral Limitations on Spatial Vision," Total Costs: \$461,738.
- 1985-1990 National Eye Institute Research Grant, R01 EY04367, "Retinal Mechanisms and Visual Resolution," Total Costs: \$450,000.
- 1985-1990 National Eye Institute Research and Career Development Award, K04 EYO0269, Total Costs: \$225,000.
- 1987-1991 United States Air Force Grant, AFOSR-88-0292, "Peripheral Limitations on Spatial Vision," Total Costs: \$380,962.
- 1990-1995 National Eye Institute Research Grant, R01 EY04367, "Retinal Mechanisms and Visual Resolution," Total Costs: \$935,000.
- 1992-1995 National Eye Institute Research Grant, R01 EY09625, "Topography of Primate Cone Classes," Total Costs: \$365,000.
- 1995-1998 National Eye Institute Research Grant, R01 EY09625, "Topography of Primate Cone Classes," Total Costs: \$410,036.

- 1995-2001 National Eye Institute Research Grant, R01 EY04367, "Retinal Mechanisms and Visual Resolution," Total Costs: \$1,354,644.
- 2002-2008 National Eye Institute Research Grant, R01 EY04367, "Retinal Mechanisms and Visual Resolution," Total Costs: \$1,555,021.
- 2008-2012 National Eye Institute Research Grant, R01 EY04367, "Retinal Mechanisms and Visual Resolution," Total Costs: \$1,461,790.
- 2012-2016 National Eye Institute Research Grant, R01 EY04367-SI, "Retinal Mechanisms and Visual Resolution," Total Costs: \$2,617,206.
- 2015-20120 National Eye Institute Research Grant, U01EY025497, "Audacious Goals Initiative," Total Costs: \$3,799,699.

Shared Federal:

- 1993-1998 National Eye Institute Grant, P30 EY1319, "Core Grant for Vision Research", David Williams, PI, Total Costs: \$1,428,701.
- 1998-2003 National Eye Institute Grant, P30 EY1319, "Core Grant for Vision Research", David Williams, PI, Total Costs: \$2,106,983.
- 2003-2008 National Eye Institute Grant, P30 EY1319, "Core Grant for Vision Research", David Williams, PI, Total Costs: \$3,289,652.
- 2008-2013 National Eye Institute Grant, P30 EY1319, "Core Grant for Vision Research", David Williams, PI, Total Costs: \$3,624,385.
- 2013-2018 National Eye Institute Grant, P30 EY1319, "Core Grant for Vision Research", David Williams, PI, Total Costs: \$3,070,000.
- 2001-2003 DOE (Department of Engineering), "High-Resolution Ophthalmic Imaging Systems," Scot Olivier, PI. David Williams, Co-PI. Total costs \$346,888.
- 1999-2004 National Science Foundation Science and Technology Center, "Center for Adaptive Optics," Jerry Nelson, PI. David Williams, Associate Director. Total costs to Center: \$20M. Total costs to Williams' laboratory per year: \$200,000.
- 2004-2009 National Science Foundation Science and Technology Center, "Center for Adaptive Optics," Jerry Nelson, PI. David Williams, Associate Director. Total costs to Center: \$20M. Total costs to Williams' laboratory per year: \$200,000.
- 2004-2015 NEI Training Grant, T 32 EY07125, "Training in Visual Science," David Knill, PI, \$411,719 per year.
- 2003-2008 National Eye Institute Bioengineering Research Partnership, "Adaptive Optics Instrumentation for Advanced Ophthalmic Imaging," Total costs: \$9,881,821. David Williams, PI.
- 2008-2014 National Eye Institute Bioengineering Research Partnership, "Adaptive Optics Instrumentation for Advanced Ophthalmic Imaging," Total costs: \$5M. David Williams, PI.
- 2010-2011 SBIR, Phase I, "2 Photon Imaging with AO," Grazyna Palczewska, PI Total costs: \$50,000.
- 2010-2012 NIH – R21, "Developing models for studying how tobacco smoke contributes to AMD pathogenesis," Total costs: \$6,000.
- 2011-2014 National Eye Institute Grant, "Functional Imaging of Ganglion Cells in the Living Mammalian Eye," William Merigan, PI Total costs: \$1,968,454.
- 2012-2015 SBIR, Phase II, R44AG043645 "Subcellular imaging of biochemical processes within human retina," Grazyna Palczewska, PI Total costs: \$1,865,561.

2014-2019 National Eye Institute Research Grant, R01EY021166, "Functional Imaging of Ganglion Cells in the Living Mammalian Eye," William Merigan, PI Total Costs: \$2,778,616.

Corporate:

1994-1995 Rochester Eye and Human Parts Bank, "Recovery of Retinal Image Quality Following Corneal Transplantation," Total Costs: \$9,000, PI, Junzhong Liang.  
1997-1998 Bausch and Lomb, "Wavefront Sensor for the Human Eye," Total Costs: \$39,500.  
1998-1999 Bausch and Lomb, "The Increase in Visual Performance Expected with Supercorrecting Contact Lenses," Total Costs: \$66,700 plus NYSSTF matching funds, Center for Electronic Imaging, \$45,000.  
1999-2000 Bausch and Lomb, "Advanced Vision Correction and Wavefront Sensing," Total costs: \$267,728 plus NYSSTF matching funds, Center for Electronic Imaging, \$45,000.  
2000-2005 Bausch and Lomb, "Vision Alliance" "Advanced Vision Correction and Wavefront Sensing," Total costs: \$200,000 plus NYSSTAR matching funds, Center for Electronic Imaging, \$40,000.  
2006-2011 Bausch and Lomb, "Vision Alliance," Project in collaboration with Bill Merigan: Total costs: \$240,652 per year, reviewed annually.  
2006-2011 Bausch and Lomb, "Vision Alliance," Project in collaboration with Mina Chung: Total costs: \$157,429 per year, reviewed annually.  
2008 Qioptiq, "Structure illumination imaging for lateral superresolution and axial optical sectioning." Shared with Jim Fienup, Total costs, \$42,000 plus NYSSTAR matching funds, Center for Electronic Imaging, \$42,000.  
2012-2015 Polgenix, Inc., "Subcellular imaging of biochemical processes within human retina," \$784,388.  
2013-2016 Canon research agreement – "Joint development of AOSLO," \$334,000.

Private Foundations:

2015 Alcon Research Institute Award, Total costs: \$100,000  
2012 Champalimaud Foundation, "Visualizing the Living Human Retina in Health and Disease: Optical Coherence Tomography (OCT) and Adaptive Optics Technologies (AO)," Total costs: \$652,562  
2001-2004 Steinbach Foundation, "High-resolution Imaging of Patients with Age-related Macular Degeneration," Total costs: \$90,910 per year.  
2009-2010 Lowy Foundation, "AO Imaging of Early Macular Telangiectasia," Total costs: \$148,000.  
2015-2017 Research to Prevent Blindness (RPB), Stein Innovation Award, Total costs: \$300,000.  
2015-2018 Beckman Foundation, Beckman Argyros Award in Vision Research, Total Costs \$300,000  
2015-2017 LV Prasad Eye Inst., AOSLO construction, Total Costs \$200,000

**UNDERGRADUATE COURSES TAUGHT**

Sensation and Perception. A one semester survey of the human senses including vision, hearing, touch, taste, smell, proprioception, and balance.

Perception and Action. A course that evolved from Sensation and Perception but also addresses sensori-motor coordination and perceptual control of motor

behavior.

Perception Laboratory. A one-semester lab course that follows Sensation and Perception.

### **GRADUATE COURSES TAUGHT**

Spatial Vision. Optical, retinal, and cortical limits on human spatial vision.

Principles of Eye Design. Diversity of imaging systems in nature. Factors controlling the evolution of simple and compound eyes.

Physiological Optics. Optics of the human eye and implications for visual performance.

Instrumentation and Methods for Vision Research. Covers psychophysical methods, optics systems for the eye, radiometry, photometry, colorimetry, display technology such as CRTs, eye movement recording, single unit recording, optical imaging of neural activity, FMRI.

Color Vision. Trichromacy, color matching, colorimetry, color discrimination and appearance, opponent color theory, photometry, color constancy.

## PATENTS

1. Method and apparatus for improving vision and the resolution of retinal images.  
Inventors: Williams, D.R., Liang, J.  
U.S. Patent #5,777,719, July 7, 1998. (Parent)  
Australia #723645, December 14, 2000 Canada #2,275,762, November 24, 2009  
Europe, EP 0969760, October 21, 2008 Japan #4105237, April 4, 2008  
U.S. Patent #5,949,521, September 7, 1999 (Continuation)  
U.S. Patent #6,095,651, August 1, 2000 (Continuation)  
U.S. Patent #6,379,005, April 30, 2002 (Continuation)  
U.S. Patent #6,948,818, September 27, 2005 (Continuation)  
U.S. Patent #7,416,305 B2, August 26, 2008.
  
2. Rapid, automatic measurement of the eye's wave aberration.  
Inventors: Williams, D.R., Vaughn, W., Singer, B., Hofer, H., Yoon, G-Y., Artal, P.,  
Aragon, J.L., Prieto, P., Vargas, F.  
U.S. Patent #6,199,986, March 13, 2001. (Parent)  
PCT WO 0128409A1, April 26, 2001  
Japan #2001-531011, October 20, 2000  
U.S. Patent #6,299,311, October 9, 2001 (Continuation)  
U.S. Patent #6,827,444, December 7, 2004 (Continuation)
  
3. Wavefront sensor with off-axis illumination.  
Inventors: Williams, D.R., Yoon, G-Y.  
U.S. Patent #6,264,328, July 24, 2001. (Parent)  
Brazil PI0014924-1, February 25, 2009  
Singapore #88416, January 27, 2006  
Japan #4656791, January 11, 2001  
Australia #781573, September 15, 2005  
Canada #2,388,775, September 18, 2007  
China ZL00814577.6, September 28, 2005  
Korea #07 34515, June 26, 2007  
Europe #1235508, August 9, 2006

Spain ES1561417, December 20, 2006  
United Kingdom GB1561417, December 20, 2006  
Italy IT1561417, December 20, 2006  
Hong Kong HK1082168, May 4, 2007

Hong Kong HK1082169, May 4, 2007  
Hong Kong HK1049435, January 5, 2007.

4. Apparatus and method for improving vision and retinal imaging.  
Inventors: Williams, D.R., Yoon, G.Y., Guirao, A.  
U.S. Patent #6,338,559, January 15, 2002. (Parent)  
Hong Kong Patent #HK 1024157, August 19, 2005 PCT WO 01/82791, November 8, 2001  
Taiwan #164094, February 18, 2003  
Canada # 2,407,082, March 30, 2010  
Europe #01930513.5  
Australia #2001257042, September 1, 2005  
Japan #4289814, April 10, 2009  
Singapore P-91439, November 30, 2004  
Korea #0841658, June 20, 2008  
China ZL01808692.6, August 2, 2006  
Brazil #0110370.9 filed April 16, 2001  
Mexico #260244, September 3, 2008.
5. Determination of ocular refraction from wavefront aberration data & design of optimum customized correction.  
Inventors: Williams, D.R., Guirao, A.  
U.S. Patent #6,511,180, January 28, 2003. (Parent)  
European Patent #1324689, August 2, 2006  
HK #1058467, December 15, 2006.
6. Metrics to predict the subjective impact of the eye's wave aberration.  
Inventors: Williams, D.R., Applegate, R.A., Thibos, L.N.  
Application #10/833,277, April 28, 2004. U.S.  
Patent #7,357,509 B2, April 15, 2008  
Patent #7,357,509, July 18, 2006.
7. Sharpness metric for vision quality.  
Inventor: Williams, D.R.  
U.S. Patent #7,077,522 B2, July 18, 2006  
U.S. Patent #7,077,522, April 15, 2008.
8. Method and apparatus for imaging an eye.  
Inventors: Williams, D.R., Morgan, J., Gray, D., Dubra, A.  
Application #11/798,902, May 17, 2007  
U.S. Patent #8,226,236, July 24, 2012  
U.S. DIV 8,556,428, October 15, 2013.
9. Structured illumination for imaging of stationary and non-stationary, fluorescent and non-fluorescent, objects.  
Inventors: Shroff, S., Fienup, J., Williams, D.R.  
U.S. Patent #12,100,723, April 10, 2008  
US #8,279,329, October 2, 2012.
